

# Yash Khapare

Python / Django Backend Developer

[8104151919](tel:8104151919) | [yashkhapare5@gmail.com](mailto:yashkhapare5@gmail.com) | [linkedin.com/in/yash-khapare](https://linkedin.com/in/yash-khapare) | [github.com/yashkhapare](https://github.com/yashkhapare)

## PROFESSIONAL SUMMARY

Python and Django developer with hands-on experience building full-stack web applications, including e-commerce style platforms and API-driven tools. Completed an intensive Full Stack Python Development program (Django, MySQL, REST APIs) alongside independent project work. Strong foundation in backend development, database design, and responsive UI development, with a track record of shipping complete, working applications end to end.

## TECHNICAL SKILLS

**Languages & Web:** Python, JavaScript, HTML5, CSS3, Bootstrap

**Backend & Frameworks:** Django, Flask, REST APIs

**Databases:** MySQL, SQLite

**Tools & Platforms:** Git, GitHub, Visual Studio Code, Responsive Design

## TRAINING & CERTIFICATIONS

**Full Stack Python Development — Questech Institute**

*Jul 2025 – Mar 2026*

*Django, MySQL, REST APIs, HTML, CSS, JavaScript, Bootstrap*

**Python Programming — Reliance Foundation Skilling Academy (Skill India Digital Hub)**

## PROJECTS

**SciEquip Hub — Online Scientific Equipment Platform**

*Jan 2026 – Mar 2026*

- Django, Python, HTML, CSS, JavaScript, SQLite ( [Git Hub](#) )*
- Built a full-stack laboratory equipment management web application with product listing, cart, and order placement features.
- Developed secure backend functionality in Django and Python, including database integration for efficient product and order handling.
- Designed a clean, responsive user interface with smooth navigation across multiple pages.

**Snippetly — Pastebin Clone**

*Nov 2025 – Jan 2026*

*Python, Flask, HTML, CSS, SQLite ( [Git Hub](#) )*

- Built a Flask-based code snippet sharing platform that allows users to create, edit, delete, and share code snippets through unique links.
- Implemented CRUD operations, SQLite database integration, and secure backend functionality for efficient snippet management.
- Designed a clean, responsive interface with syntax-highlighted code display for an improved user experience.

**MelodyMine — Music Downloader Web App**

*Aug 2025 – Oct 2025*

*HTML, CSS, JavaScript, Python, Flask ( [Git Hub Link](#) / [Live Demo](#) )*

- Built a web-based music downloader enabling users to search and download songs via an external music API.
- Implemented asynchronous API integration and optimized backend processing for fast, seamless search and download performance.
- Designed a responsive, user-friendly interface with backend logic handled in Flask and Python.

## EDUCATION

**Bachelor of Science in Information Technology — GPA: 7.60**

*Graduated Apr 2025*

*AVM's Karmveer Bhaurao Patil Degree College, Mumbai University, Mumbai, Maharashtra*
